

SPARE PARTS SUPPLIER - POWER TRANSMISSION
ENGINEERING SOLUTIONS

TECHNICAL SOLUTIONS PROVIDER

BOTTLING LINE: regular machine maintenance and design office

Over many years, TPM9001 has been honing its understanding of bottling lines, and owns all the original plans, technical instructions and client files for equipment made by DUBRU, VANDERGETEN and VDI dating back to the early 1960s.

- **PREVENTATIVE MAINTENANCE**

Don't leave it until your production equipment goes wrong before you think about maintenance! TPM9001 can help you with regular repairs and reviews of your bottling line.

- **CORRECTIVE MAINTENANCE**

Has a fault slowed down or interrupted your production line? TPM9001 can quickly sort the problem out or provide the parts you need.

- **DESIGN OFFICE**

TPM9001 can organise studies of how you can improve your production line taking into consideration issues such as quality requirements, security and cost.

TPM9001's design office also develops new machines which are better equipped to meet your current needs (specialist machines).

- **SUPPLYING SPARE PARTS**

TPM9001 can also produce new parts which are compatible with old machines made by DUBRU, VANDERGETEN, VDI or any other brand.

TPM9001 also holds an extensive stock of spare parts for power transmission (bearings, rolling bearings, chains, pinions, belts, tools, abrasives, adhesives, lubricants etc.).

Services offered:

- Preventative maintenance
- Corrective maintenance
- Design office
 - Development of new parts
 - Development of new specialist machines
- Supply of spare parts
